

The first-round vote was more concentrated in 2022 in 95 of 96 départements

Change in HHI, 2002 to 2022. National HHI 0.114 in 2002 and 0.190 in 2022 (mean across départements: 0.120 and 0.196).

ΔHHI = HHI 2022 – HHI 2002, with $HHI = \sum (\text{vote share})^2$, higher = more concentrated. It describes the observed vote and does not by itself identify strategic voting.
Sources: Ministère de l'Intérieur (first-round results), INSEE (population, surface). 96 metropolitan départements.
